Treo 700W Photos Surface

Some lucky person over at Dave's iPaq site has acquired a Verizon Treo 700W. While official photos of the Windows Mobile Treo were released by Palm months ago, these new photos confirm the name of the product will be Palm Treo 700W.

Treo 700W Photos Surface

Some lucky person over at Dave's iPaq site has acquired a Verizon Treo 700W. While official photos of the Windows Mobile Treo were released by Palm months ago, these new photos confirm the name of the product will be Palm Treo 700W.

Photos confirm the product name is officially the Palm Treo 700w.

Here is the about window that shows the Treo running Windows Mobile 5.0.

This photo shows it's the CDMA version of the new Palm Treo.
Verizon Treo 700

This photo shows a Verizon splash screen. Verizon Wireless will be the exclusive wireless carrier of the new Windows Mobile Treo. No official word yet on other carriers, although they are expected to announce it's availability on other wireless providers in the future.

This appears to be the packaging.
